245 ACORDES - SEQUÊNCIAS DISSONANTES - EXERCÍCIOS DE DIGITAÇÃO - DICAS

INTRODUÇÃO

Antes de Você iniciar o aprendizado dos acordes que contem nesta Apostila é preciso lêr as instruções abaixo:

Estes Acordes servem para Cavaco e Banjo e ambos os instrumentos são Limitados, portanto você irá se deparar com acordes no mesmo Shape (Mesma formação) porém com nomes diferentes e até em outro tom. Para saber qual a nomenclatura correta a ser usada na Partitura ou Cifrado consulte o Campo Harmônico do Tom da Harmônia.

Tenha **ATENÇÃO** quando o diagrama dos acordes possuir estas marcações **5°** **7°** em sua parte externa, pois significa que aquela casa da escala se tornou Quinta ou Sétima casa.

Este Recurso é usado quando o Acorde vai Além da 6° casa do Instrumento, Ultrapassando assim o Limite do Diagrama.

Conheça agora alguns simbolos utilizados na escrita dos acordes que tem o mesmo significado :

M = + / b = - / DIM = ° / m7b5 = m75-

Com estes esclarecimentos lhe desejo um Bom Estudo!

ACORDES DIMINUTOS

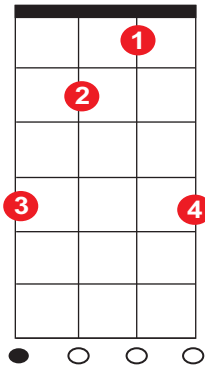

Acorde Diminuto é o acorde musical formado de um intervalo de 3ª menor, 5ª diminuta e 7ª diminuta (que equivale à Sexta).

Isto é, a distância entre a fundamental e a terça é de 1 tom e meio, de 3 tons entre a fundamental e a quinta e de 4 tons e meio entre a fundamental e a sétima. Outra particularidade que pode ser estabelecida para auxiliar na produção do acorde é o fato de haver sempre 1 tom e meio entre as notas formadoras. Isto é, da fundamental para a terça, da terça para a quinta, da quinta para a sétima diminuta e desta para a tônica novamente, a distância é de 1 tom e meio.

O acorde diminuto é escrito com a Cifra do acorde seguido de um pequeno círculo (°) acima e à direita ou seguido da sigla (DIM)

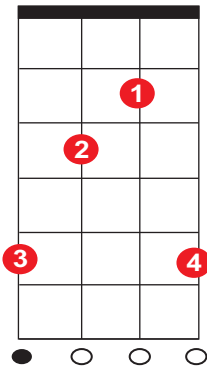

Aprenda 3 shapes que Servem para montar os Acordes diminutos de forma Fácil e prática.

1° SHAPE

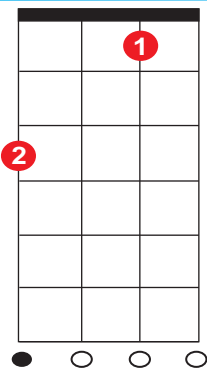

ESTE SHAPE PODE SER USADO NOS

3° SHAPE

ESTE SHAPE PODE SER USADO NOS
ACORDES: **RÉ DIMINUTO | FÁ DIMINUTO**
SÍ DIMINUTO

ACORDES MEIO -DIMINUTOS

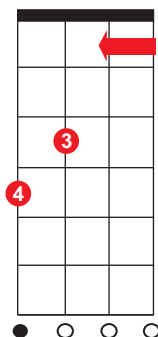

Acorde semi diminuto ou meio diminuto (ou acorde menor com sétima menor e quinta diminuta) é o acorde musical formado de um intervalo de 3ª menor, 5ª diminuta e 7ª menor. Isto é, a distância entre a fundamental e a Terça é de 1 tom e meio, de 3 tons entre a fundamental e a quinta, e de 5 tons entre a fundamental e a sétima.

Simplificando, há um intervalo de 1 tom e meio entre a tônica (nota fundamental) e a terça menor, outro intervalo de 1 tom e meio entre a terça menor e a quinta bemol (ou quinta diminuta) e de 2 tons entre a quinta bemol e a sétima menor. Isso o diferencia do acorde diminuto, em que todos os intervalos são de 1 tom e meio.

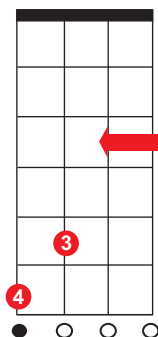

O acorde meio diminuto corresponde ao sétimo grau do campo harmônico da escala maior.

O acorde Meio-Diminuto é escrito com a cifra do acorde seguido de m7(b5) ou Ø ou m75-

**DICIONÁRIO
DE ACORDES***Daniel Martins***10 EXERCÍCIOS DE DIGITAÇÃO**

ESTES EXERCÍCIOS TEM COMO PRINCIPAL FINALIDADE AUMENTAR A ARTICULAÇÃO MOTORA DA MÃO ATRAVÉS DO AQUECIMENTO DOS NERVOS E TENDÕES DOS DEDOS ENVOLVIDOS, PROPORCIONANDO MELHOR DESEMPENHO E AGILIDADE NOS SOLOS E MONTAGEM DE ACORDES NO INSTRUMENTO. VOCÊ DEVE TREINAR OS EXERCÍCIOS NA ORDEM ABAIXO SEMPRE ANTES DE INICIAR OS TREINOS ENVOLVENDO OS ACORDES POR PELO MENOS POR 3 MINUTOS CADA.

COMO TREINAR

EXECUTE A DIGITAÇÃO SUBINDO E DESCENDO NA ESCALA DE SEU INSTRUMENTO DE ACORDO COM AS SEQUÊNCIAS NUMÉRICAS ABAIXO, E ALTERNE A PALETADA (PARA CIMA E PARA BAIXO)

1°	2°	3°	4°

DICAS PARA TROCA ENTRE ACORDES

Na execução de uma música acontecem varias mudanças de acordes no qual chamamos trocas entre os acordes, e elas devem ser feitas seguindo o compasso e o bit da mesma.

Muitos tem dificuldade em realizar estas trocas de acordes com a precisão necessária para uma perfeita reprodução harmônica, e com isso acabam atrapalhando todo andamento da música.

A melhor maneira de evitar esta deficiência é iniciar o aprendizado com as técnicas corretas de estudo e sem pular esta etapa fundamental, mais se você já iniciou a um certo tempo e esta com esta dificuldade vou te ajudar com um exercício para corrigir este problema:

Siga estes 3 passos:

1º - Treine as trocas entre acordes que você sente dificuldade apenas marcando o compasso 4X4 com Palhetadas para baixo, ou seja você vai bater 4 vezes a palheta nas cordas para baixo e efetuar a troca para o próximo acorde. Faça isso por varias vezes até conseguir o encaixe de todos os dedos ao mesmo tempo dentro do compasso.

2º - Agora faça o mesmo procedimento mudando apenas o compasso de 4x4 para 2x4. A Diminuição do tempo para trocar de um acorde para o outro vai te ajudar a ganhar agilidade. Faça isso por varias vezes até conseguir o encaixe de todos os dedos ao mesmo tempo dentro do compasso.

3º - Agora faça o mesmo procedimento mudando o compasso de 2x4 para 1x4. Esta será a parte mais difícil, porém a que vai garantir o seu objetivo na precisão. Faça isso por varias vezes até conseguir o encaixe de todos os dedos ao mesmo tempo dentro do compasso.

SEQUÊNCIAS DISSONANTES MAIORES

As sequências devem ser tocadas no compasso 2x4 respeitando as repetições de Acordes onde estiver sinalizado com este Símbolo (%). Lembrando que Acordes em (#) basta andar um semi-tom a frente e Acordes em (b) um semi-tom para trás.

DICIONÁRIO DE ACORDES

Daniel Martins

AGRADECIMENTO

Olá, me chamo Daniel Martins e Agradeço pela confiança adquirindo mais este material do Estúdio D. Este dicionário de acordes foi elaborado cuidadosamente por mim visando facilitar ao estudante do Cavaco e Banjo a localização e aprendizado dos acordes mais utilizados nestes instrumentos e assim ganhar tempo na hora de tirar músicas, pois sempre que precisar basta consultar esta Apostila.

O Estúdio D disponibiliza de Material completo para seu Aprendizado do Zero do do Cavaco e Banjo, veja abaixo nossas opções de Cursos:

Curso Escadinha THE BEST - Iniciante do Zero

Curso Palhetadas Express - Específico em Palhetadas

Curso Campo Harmônico 2.0
