Considerações iniciais

É com grande satisfação que lhes trago o Dicionário de Acordes para Cavaquinho, que começou a partir da minha própria busca e estudo de como montar os acordes de diversas maneiras no braço do instrumento.

O Dicionário foi feito com o intuito de ser um material de estudo, pesquisa e consulta para cavaquinistas e estudantes, existem muitas outras aberturas que não estão registradas aqui e nenhum método ou apostila pode substituir o conhecimento da estruturação musical dos intervalos, formação de escalas, acordes e harmonia.

Ciente de que não seria possível atingir a profundidade desejada apenas com o meu olhar e experiência, foi fundamental a contribuição de alguns amigos para esta construção, o que possibilitou concatenar diferentes perspectivas para chegar em um resultado amplo e profundo.

A confecção deste material foi totalmente independente, não tive nenhum apoio de instituições ou editais, e foram investidas muitas horas de trabalho para a produção, revisão e diagramação do Dicionário de Acordes para Cavaquinho.

Sei que é impossível reter informações e mídias na internet, portanto se este material chegou em suas mãos através de alguma pessoa ou foi baixado em algum site, agradeço muito se puder entrar em contato comigo e fazer sua contribuição com o meu trabalho.

Aproveito para pedir encarecidamente que não compartilhe o arquivo do Dicionário com outras pessoas, sites e blogs. Tendo retorno, posso continuar investindo meu tempo na criação de outros materiais como este.

O arquivo já está formatado para impressão.

Estou à disposição para qualquer dúvida, sugestão e esclarecimento.

Como usar o Dicionário de Acordes

Ainda não existe uma maneira considerada universal para as cifras, você pode encontrar o mesmo acorde escrito de muitas maneiras diferentes. As cifras aqui escolhidas são simples e bem comuns de serem encontradas.

Os acordes que estão posicionados na região mais aguda do instrumento não são usados no dia-a-dia do Cavaquinho, eles foram escritos por que de fato estão lá, e também podem ser usados como arpejos, acordes de efeito, introduções ou como quiser.

Uma mesma posição de acorde pode ser usada em diferentes contextos e ter mais de um nome. Por exemplo, a forma do acorde **X6(9)** também pode ser usado em um acorde **X7(4)**.

A disposição dos acordes foi feita de acordo com sua construção, sempre a partir da nota fundamental e depois para as notas seguintes, algumas vezes os primeiros acordes estão em uma posição bem aguda. Um bom ponto de partida é escolher sempre as posições mais próximas umas das outras e com o tempo montar seus encadeamentos favoritos. Outra sugestão de estudo, é trazer as formas novas para músicas do seu repertório.

Para encontrar alguns acordes, vai ser necessário usar a enarmonia, isso quer dizer que alguns acordes tem nomes diferentes, porém o mesmo som.

Veja os nomes correspondentes abaixo:

C# - Db

D# - Eb

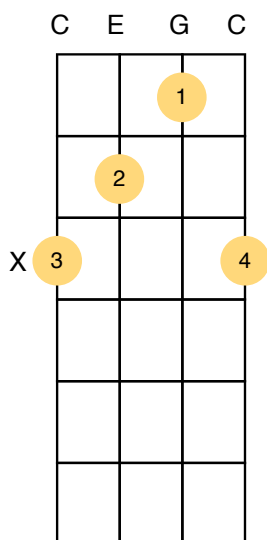

F# - Gb

G# - Ab

A# - Bb

Por exemplo, se a você quiser o acorde **G#m7**, você deve procurar aqui na apostila pelo acorde **Abm7** e assim por diante. Eles tem nomes diferentes, porém o mesmo som.

O Dicionário foi feito assim para diminuir um pouco do volume de páginas.

Os números correspondem aos dedos da mão esquerda, dedo 1 - indicador, dedo 2 - médio, dedo 3 - anular e dedo 4 - mindinho. A indicação dos dedos é uma sugestão, eles podem ser trocados, de acordo com a preferência de cada um.

O símbolo "O" significa que a corda deve ser tocada solta.

O algarismo romano corresponde a casa na 4ª corda no braço do instrumento, neste caso o dedo 3 está posicionado na décima casa, na 4ª corda.

As notas (C, E, G, C) são as notas que estão sendo tocadas para formar o acorde, afim de estimular o conhecimento sobre a formação de acordes.

Agradecimentos

Em primeiro lugar, agradeço imensamente aos meus amigos que ajudaram na revisão e composição do Dicionário, ao Professor Marcelo Candido, Emerson Bernardes e Pedro Cantalice, a contribuição e o olhar de vocês foi primordial para a profundidade deste trabalho.

Também agradeço aos amigos que me ajudaram com formas de acordes, opiniões e muitas palavras de incentivo, Giovani Felizate e André Iglesias.

Outra pessoa fundamental foi o Rafael Esteves, que me ensinou entre tantas outras coisas, a técnica de caminhar com as vozes dos acordes, para encontrar outras maneiras de montá-los.

Agradeço ao Professor Edmilson Capelupi pela orientação, apoio e conversas.

Agradecimento especial ao meu amigo de longa data, Átila Meireles pela arte gráfica do Dicionário.

Também quero agradecer minha família, que sempre apoiou incondicionalmente meu trabalho, e desde o dia em que decidi trabalhar profissionalmente como músico, nunca disse uma só palavra que me deixasse desmotivado.

Deixo também um grande agradecimento a minha companheira, Inaiê Moreira, por todas as conversas, palavras de apoio e companhia nestas inúmeras horas de trabalho.

Um imenso obrigado a todos os professores e professoras de Música que passaram por minha vida.

Finalmente agradeço a confiança e o carinho de todos aqueles que apoiaram, divulgaram, comentaram, curtiram e compartilharam o Dicionário de Acordes para Cavaquinho.

Uma lembrança e agradecimento especial aos Mestres e grandes Cavaquinistas, que construíram a história do Cavaquinho e nos entregaram este legado de valor inestimável.
